Colonie, NY 12205

Dear John,

We, at Sacred Heart Church in Lake George, wish to commend your firm for the outstanding construction management job in the building of our new and renovated church.

We were especially pleased with the close working relationship that we had with you during the entire project. Your willingness to work with us step by step and your ability to keep us within budget, is greatly appreciated. We were most appreciative of your systematic bi-weekly reviews with our building committee. The transparency of cost and contract details enabled us to appreciate the many decisions and revisions that were required in the project. It, likewise, made it possible for us to make informed decisions and recommendations to you and with you and to maintain the quality and integrity of the project.

Your staff was extremely cooperative and dedicated to the details and accomplishment of our project. We especially wish to commend your project manager on-site, Gordie and his co-workers, for their tremendous efforts in working with us as the details progressed and evolved.

John, on behalf of Sacred Heart parish and Building Committee, I wish to commend and recommend the work that you did as our construction manager. I am personally grateful to you for the working relationship that you allowed me to be a part of in this project. Your personal interest and commitment to our project is reflected in the satisfaction and pride that the parishioners of Sacred Heart take in this new edifice that has now become part of our ongoing history as a faith community here in the Lake George seasonal and tourist area. Our new church adds to the beauty of this resort and resident community and one that *Bishop Beaudry Construction* can take pride in along with us.

With sincere thanks and blessings,

Rev. Thomas F. Berardi
Pastor
