Re: ADI and Improvements
Warehouse Building
Selkirk, NY

Dear John and PJ:

Once again, it was a pleasure to work with your company on another project. This one has multiple players and was difficult to satisfy at times but you, as usual, came through with stellar results.

Not only was this an extremely large existing building (450,000 SF) but the site and septic systems involved made the project even more difficult. Couple that with the almost unreasonable schedule made me think this could not be done when desired. Your company came through and met the challenge.

The level of workmanship and construction management, was achieved by you with a high degree of professionalism and craftsmanship.

The owner and eventual occupants were a constant element to satisfy and your ability to create a cooperative and solution-solving environment cannot be overlooked. Scheduling and budget constraints do not seem to disturb the ultimate final product due to your management abilities.

I hope we will work on many project together over the coming years. You are on the top of my list of recommended contractors and make my life easier.

Thanks again for helping to make this a successful project.

Martin P. Dion, AIA, LEEDap
Architectural Manager
